

Building Is As Easy As [5, 4, 3, 2, 1

By Jake White

5 FIVE

2005 was a bad year for south Florida. Hurricane Wilma devastated thousands of homes and caused millions of dollars in damages, and thousands went for weeks before they could move back into their homes. But many lucky people found support and hope from the friendly building team at **Atlantic Siding and Roofing of Central Florida (ASR)**.

Hours after the storm ripped through Fort Lauderdale, the licensed and insured workers at Atlantic Siding and Roofing of Central Florida were on the road because they knew that many families would be homeless without their help. More than a year later, with their mission completed, they returned to their homes in Central Florida to provide their services to our community once again.

2004 had been even worse. As we all know, Central Florida became a sea of blue tarps. Roofs that were only a few years old (but rated for 30 years) were damaged, partially ruined or destroyed. There was so much work to be done that roofers were backed up for months.

That's when the team at Atlantic Siding and Roofing of Central Florida showed their strengths, building, replacing and repairing more than 3,000 roofs! Not to mention all the siding, windows, drywall, soffits, doors...

The daunting task of scheduling, bidding, building/repairing and follow-up was masterfully completed in record time. **Patrice Chaffaut**, Sales Manager of Atlantic Siding and Roofing of Central Florida, proudly proclaims, "We had the highest customer satisfaction ever recorded by the company."

The Atlantic Siding & Roofing Team:

George Schaner, Jerry Butler, Patrice Chaffaut,
Lynn Lambert, Michael Gagne, Larry Meyers,
Lorenzo Azarcon and Mike Schaner
